

Summer Food Service Program

Looking for a cost effective way to provide meals and snacks to young people who attend your summer program? Here is a solution.

The Summer Food Service Program for Children (SFSP) was created to serve nutritious meals to children when National School Lunch and School Breakfast Program meals are not available. To ensure all children receive proper nutrition throughout the year, SFSP reimburses organizations that prepare and serve meals to eligible children during the summer and school vacation periods.

The program is administered by the Indiana Department of Education and you can get all the information you need and want here: www.doe.IN.gov/food/summer

Tina Skinner is the SFSP Specialist at the department of education. Her telephone number is 317-232-0858 or 800-537-1142.
